

Painful Insights

A focus on chronic pain management and mental health concerns

Epworth Camberwell is hosting a Category 2 update for GPs on pain management and associated mental health concerns.

Speakers

Dr Babak Farr, rehabilitation physician

Managing chronic pain in general practice.

Dr Christine Kotsios, psychiatrist

Depression and chronic pain: strategies for management in general practice.

Mr Chris Weiers, physiotherapist

How GPs and physiotherapists should manage acute non-specific low back pain and what to do when that fails.

Learning outcomes:

1. Diagnose and develop a treatment pathway for patients with acute and/or chronic pain.
2. Identify which patients with chronic pain, who may have comorbid symptoms, require specialist referral.
3. Develop and implement a recall system for patients with acute and/or chronic pain who may require additional support or specialist referral.

RACGP CPD Points

4 Category 2 QI&CPD points
